

**The British Neuropsychiatry Teaching Weekend**  
**9<sup>th</sup>, 10<sup>th</sup> and 11<sup>th</sup> December 2016**  
**St Anne's College, Woodstock Road, Oxford, OX2 6HS**  
[www.st-annes.ox.ac.uk](http://www.st-annes.ox.ac.uk)

**The essentials of neuropsychiatry**

This weekend course, aimed at Specialist Registrars in neurology and psychiatry, will review key areas of neuropsychiatry. Topics will include neurological and psychiatric history taking and examination, investigations (MRI, EEG), psychological presentations of neurological disorder, 'neurological' presentations of psychological disorders and the biological basis of psychiatric symptoms. The weekend promises to instruct and inspire. Participants will also receive a course handbook. Numbers are limited to 50, drawn equally from psychiatry and neurology, with 17 speakers and 20 talks.
